

# IICRC COURSE - Odor Control Technician

Sponsored by:

**Seminar Location:**  
Comfort Inn and Suites  
3020 Blanshard St. Victoria

**Date:**  
March 18th, 2011

## Odor Control Technician

All systems, products, tools, fairly presented

### Your Instructor: Sandy Bowles

Sandy has been involved with the cleaning and restoration industry for over 30 years. She has created and sold three independent restoration businesses, including obtaining a Residential Builders license, which allowed her to take the job from the start to the finish. She has been an IICRC approved instructor for over 16 years, currently instructing Fire and Smoke Damage Restoration (FSRT), Water Damage Restoration Technician (WRT), Applied Structural Drying (ASD) and Odor Control Technician (OCT). Sandy is also the IICRC Chair of the Technical Advisory Committee for Fire and Smoke Damage Restoration, establishing the criteria for the certification exam. Her unique style of instruction, along with her knack for sharing her "off-the-wall" humor, keeps her students coming back for more. Sandy not only teaches the technical information that you will need, but also gives a lot of attention to things we do that can get us in trouble and cost you the profits you just made. We are sure you will enjoy your time spent and go away with a renewed enthusiasm for your trade.
