

Mould Remediation Training Program

Sponsored by
PlanetClean®
Your Source for Clean™

This program provides a basic overview of mould contamination and remediation. Students can expect to learn how to prevent mould contamination as well as protect themselves and others when remediation is necessary. All subjects covered are designed to give the student a workable knowledge of mould and its life cycle and possible health concerns. All topics are to be considered as reference material and no remediation strategies should be undertaken without professional support or supervision

Contract Cleaning Companies
Public and Private Schools
Hospitality Industry
Health Care Facilities
